Hazardous Decomposition and Combustion Products  
**Smoke, carbon monoxide, aldehydes, hydrogen sulfide and alkyl mercaptans may be released. Under combustion conditions, oxides of the following elements will be formed: nitrogen, sulfur, carbon, molybdenum, boron, lithium, potassium.**

**SECTION VI - TOXICOLOGICAL PROPERTIES OF PRODUCT**

Route of Entry **Skin Contact, Eye Contact, Inhalation, Ingestion.**

Effects of Acute Exposure to Product

**Contact with eyes and skin can cause irritation. Inhalation: May cause irritation to the nose and throat, headaches and dizziness. Ingestion: May cause nausea and vomiting. Large quantities may effect the central nervous system. Exposure may aggravate existing dermatitis & respiratory conditions.**

Effects of Chronic Exposure to Product

**Dermatitis possible with prolonged and repeated contact.**

**SECTION VII - PREVENTATIVE MEASURES**

Personal Protective Equipment

**Wear suitable protective clothing to prevent skin contact. Chemically protective aprons and boots are recommended for contact exposure or spill clean-up.**

Gloves <b>Impervious (nitrile) gloves.</b>	Eye Protection <b>Chemical goggles or face shield.</b>
---	---

Respiratory  
**Normally not required. Wear an appropriate NIOSH approved respirator with organic vapor cartridges if concentration levels exceed the safe exposure limits. SCBA recommended for confined space entry or other poorly ventilated area and large spill clean-up sites.**

Engineering Controls  
**Ventilate to control mists and vapors below exposure limits.**

Leak and Spill Procedure  
**PPE should be worn. Ventilate area if confined or poorly ventilated. Contain with dikes or absorbent to prevent entry to sewer/streams. Take up small spill with dry chemical absorbent; large spills pump or vacuum. May require excavation of severely contaminated soil. Avoid contact with skin and eyes.**

Waste Disposal  
**Dispose of according to government regulations.**

Handling Procedures and Equipment  
**Handling temperatures should not exceed 80 C. Wash thoroughly after handling. Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time. Do not wear watches, rings or similar apparel that could entrap the material next to the skin.**

Storage Requirements  
**Store in well ventilated area away from all ignition sources. Do not store at temperatures exceeding 113F (45C). Odorous and toxic fumes may form from the decomposition of this product if stored at excessive temperatures for extended periods of time.**

Special Shipping Information  
**TDG: Not Regulated.**

**SECTION VIII - FIRST AID MEASURES**

Skin  
**Immediately wash skin with soap and water. If material penetrates through clothing, remove contaminated clothing and wash the skin with soap and water promptly. If irritation persists seek medical attention.**

Eye  
**Immediately wash eyes with large amounts of water , occasionally lifting the lower and upper lids. Seek medical attention.**

Inhalation  
**Move to fresh air. Perform artificial respiration if breathing stopped. Keep person warm and at rest. Seek medical attention.**

Ingestion  
**DO NOT INDUCE VOMITING! Get medical attention immediately.**
